To whom it may concern

XEROX Romania has been working with PERSPECTIVE Group for less than a year, yet they showed professionalism from the very first project.

The recruitment market in Romania is a tough one, we all know it, and things get even more complicated for the IT domain. Since we are an expanding company, we look for new specialists on a regular basis; the projects we worked on with PERSPECTIVE Group team were not easy ones, yet they have perfectly understood our needs.

PERSPECTIVE team managed not only to present quality candidates for the short list and fill in the positions, but offer real consulting services both to us and to the candidates, which lead to successful projects completion.

Alina, keep up the good work!

Yours sincerely,

Magda Ispas  
HR Manager
